RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In complete response to the Office Action mailed March 24, 2004, Applicants hereby elect, albeit with traverse, Group I, Claims 2-35 and 39-59, drawn to viral vector and particles, complementation cell lines, and a method of preparing infectious viral particles.

Initially, Applicants note that the statement of claims pending in the present application appears to be in error. Applicants respectfully submit that only Claims 39-61 are currently pending. Claims 2-38 were canceled in the transmittal letter submitted on March 19, 2001 (see item #8 on p. 2). Claim 1 was canceled in the Preliminary Amendment also filed on March 19, 2001. Thus, only Claims 39-61 should be considered pending. Applicants further request that the amendment to the specification regarding the related application data requested in the transmittal letter submitted on March 19, 2001 (see item #9 on p. 2) be acknowledged.

According to M.P.E.P. § 803, a restriction requirement between patentably distinct inventions is proper only when there is a serious burden on the examiner to

examine all of the claims in a single application; this is true even when appropriate reasons exist for restriction requirement. Applicants respectfully submit that the searches required to completely examine both groups of claims would substantially, if not completely, overlap. In particular, Applicants draw attention to the fact that the only pending claims of Group II, Claims 60 and 61, are directly or indirectly dependent upon Claim 39 of Group I. Thus, to examine these two additional claims, the Examiner must conduct a similar search required to examine Claim 39 of Group I.

Applicants respectfully submit that it would not be unduly burdensome for the Examiner to search and examine all claims of the present application on the merits at the present time. Applicants therefore request rejoinder of Groups I and II, Claims 39-61, and examination of all pending claims on the merits at the present time. Applicants further submit that the present claims already comply with the provisions for rejoinder as discussed on page 3 of the current Office Action because the claims of Group II already depend directly or indirectly from Claim 39 of Group I.

If there are any questions concerning this reply or the application in general,
the Examiner is respectfully requested to telephone Applicants undersigned
representative so that prosecution may be expedited.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
